

Dear: Colleagues

For the past several years, Fairview Lakes Regional Health Care has entrusted our complete, year-round campus maintenance to Peterson Companies.

This includes complete lawn care, irrigation and landscape maintenance, any and all additional outdoor construction needs.

In the winter months, as with any business, the safety of those visiting our facility is of utmost importance. As a hospital, it is our top priority. During a snowstorm, Peterson Companies arrives on time and stays on-site, ensuring that our drives and sidewalks are clear of snow, ice and safe.

We are very pleased with Peterson Companies' compassion and integrity of service. Fairview Lakes Regional Health Care would highly recommend them to anyone seeking for a high level of service in their grounds maintenance in all seasons.

**Carl Sorensen | Director of Facilities**
